• PROFILE

Professional analyst seeking opportunities for career growth. I enjoy using tools such as SSMS, SQL, and Power BI to help tell a story and clarity to businesses. I am constantly looking for ways to grow my skills and knowledge.

• EMPLOYMENT HISTORY

Business Intelligence Analyst at Parable Associates, Remote

November 2021 — Present

I help clients within the Healthcare provider space create RCM BI solutions utilizing Power BI.

While creating reports, client needs are at the top of my mind. With that, I also use my knowledge and creativity to ensure interactivity and usability that will help end users gather the insights needed to help drive the business.

Reports created include Current AR, Denials, Production Summary (Charges/Payments/Adjustments), KPI, Month End, AR Backlog, and more.

Risk Analyst I at FIS, Jacksonville

August 2020 — November 2021

I planned, scheduled, and hosted Genius Bar Sessions to help end users navigate and use Power BI reports.

I led a larger initiative around improving our reporting infrastructure by utilizing Power BI apps and dashboards to help improve user experience.

Smaller projects included working with stakeholders to create reports from data queries, measures, and visuals.

Yield Analyst at Collette, Pawtucket

January 2019 — May 2020

I created reports utilizing data from SQL Servers to prepare and validate data for reports in Excel and Power BI.

I utilized Power Pivot, DAX, and Pivot Tables to complete ad-hoc tasks requested by team members across departments.

Created Power BI reports that were utilized across the company to make data-driven decisions in regard to specific tours.

• EDUCATION

Masters of Business Administration, University of Massachusetts at Dartmouth, Dartmouth

August 2018 — August 2019

Bachelor of Science in Management Information Systems, University of Massachusetts at Dartmouth, Dartmouth

August 2015 — May 2018
